

Enphase Energy Surpasses 7,500 Enphase Care Enrollments in the United States, Expanding Long-Term Support for Homeowners

FREMONT, Calif., Sept. 01, 2026 (GLOBE NEWSWIRE) -- [Enphase Energy, Inc.](#) (NASDAQ: ENPH), a global energy technology company, today announced that more than 7,500 homeowners across the United States have enrolled in Enphase® Care, the company's premium support offering for Enphase solar and battery systems. Enphase Care gives homeowners the confidence of long-term support from the company that knows their energy systems best.

Available in all 50 U.S. states, Enphase Care adds proactive system monitoring, panel warranty claim support, and no-cost service visits for covered repairs. Backed by Enphase's 24/7 expert support and system intelligence, including the [Enphase AI Assistant](#), Enphase Care helps identify issues early, resolve them quickly, and coordinate service when needed.

Homeowners can choose Enphase Care with annual coverage or Enphase Care+ with 10 years of prepaid coverage for long-term peace of mind. The two options make it simple for homeowners to choose the coverage that works best for them.

For installers, Enphase Care adds another reason for homeowners to choose the Enphase platform. By giving customers confidence that their systems will be supported for years to come, Enphase Care helps installers strengthen customer relationships and creates opportunities for future system expansions, including batteries, EV charging, and other Enphase products.

Enphase Care also extends the value of the company's platform beyond the initial system purchase, creating a long-term services opportunity across its growing installed base. At its current pace, Enphase Care is on track to enroll more than 10,000 homeowners annually.

"I don't worry about surprise repair bills anymore," said Thomas A., an Enphase Care customer in Texas. "If something looks off, Enphase alerts me and helps right away. Knowing I'm covered lets me focus on the savings."

"One panel had been underproducing for weeks, and I never would have caught it," said Reed West III, an Enphase Care customer in Virginia. "Enphase caught it, came out, and the visit was covered."

"Homeowners choose Enphase for technology they expect to rely on for many years, and they should be able to rely on the company behind it for just as long," said Nitish Mathur, SVP of customer experience at Enphase Energy. "Enphase Care gives homeowners peace of mind for years to come. It makes the Enphase platform more valuable for our installer partners and gives Enphase the opportunity to support homeowners well beyond the initial installation."
